

PE UPDATE

K52 Orienteering competition

On Monday 29th September both Owls and Fox's classes took part in a O.A.A competition for the afternoon. O.A.A (outdoors adventurous activities) is a unit of work within the physical education national curriculum. The unit focuses on engaging children in challenging outdoor experiences to develop physical, cognitive and social skills like problem-solving, teamwork, confidence and resilience. The children enjoyed working in different teams throughout the afternoon where they took on the challenge of map reading around the school site, problem solving and teamwork activities. It was lovely to see the children putting their minds together to find solutions to their problems. Children in both classes showed a growth mind-set which is a focus for us this year at Pinchmill. Well done to all students involved on Monday and thank you to Miss Rolfe from our school sports partnership for delivering a fun filled session for our students.

Dates for dairy's

7th October – Boccia competition @ john Bunyan sports centre

8th October – Year 5&6 sports festival @ Sharnbrook academy
